The problems we solve.

| | |
|--|---|
| <p>TIME</p> <p>Save time at every stage of the planning and production process</p> |  |
| <p>MONEY</p> <p>Keep events on budget and expenditure under control</p> |  |
| <p>PEOPLE</p> <p>Organise teams & individuals effectively and efficiently</p> |  |
| <p>RESOURCES</p> <p>Track resource usage and bookings, for technical, furniture or catering items</p> |  |

Yesplan is used in various sectors.

Contacts and Relationships

We know many people or organisations work with our clients to produce great events. Manage individuals, companies along with their relationships in one central location.

Financials and Budget

Track all expenditure and income, whether actual or predicted to make sure your events stay on budget. Detailed reporting and analysis tools such as our deal sheet tools helps manage multiple events and projects.

Staff Administration

Your staff help deliver your programmes, but when are they due to work next? How many hours are they planned to work next week? Yesplan can effortlessly manage your staff and answer your questions.

Event Planner

Take control of your planning cycle, manage recurring events, complex groups of events and every stage of your planning and delivery phases in one intuitive interface.

Resource Management

What, where, when, how many? Getting the right resources to the right place at the right time is essential for smooth events. Yesplan tracks and reports on resource usage, costs and of course revenues.

Cloud

Free yourself from back ups, server maintenance or costly upgrades, our fully managed SaaS product suite allows you to focus on your venue and events.

Unlimited users

Yesplan facilitates greater collaboration and communication with our unlimited user model.

API

Connect to ticketing platforms, customer display screens, your website or financial systems. The Yesplan API allows endless opportunity.
