

Why Yesplan has chosen Beeple.

We are joining forces with Beeple to simplify the planning of flexi-workers. Beeple is an absolute specialist at this and we'd like to show you why.

Beeple is the market leader in the field of online staff management. It offers an online tool that allows you to manage flexi-workers, temporary workers and volunteers in just a few clicks. With Beeple, you can manage your database as well as your work and personal data, job vacancies, invite the right employees, offer online coaching and manage facilities and payments in a single tool.

With a wide range of functionalities and an international client base, Beeple is **the most complete tool for staff management on the market**. It's easy to integrate the application with a range of other popular business software, including Yesplan, for optimum efficiency.

human errors

84% better
communication

40% lower
planning costs

70% faster
than Excel

100%
paperless

What do our clients say about Beeple?

"We've found a great tool in Beeple for scheduling our 45 volunteers. Thanks to the integration with Yesplan, we no longer have to enter our data a second time. And because our volunteers can enter when they are and are not available, the number of emails involved in drawing up the rota is reduced.

Sietske Scholtemeijer

HEAD OF OPERATIONS AT THEATER HET KRUISPUNT

"Now that there is the integration with Beeple, everything runs even more smoothly. The integration between Yesplan and Beeple is the ideal solution for our multi-faceted museum operations.

Phellice Timmermans

DIGITAL APPLICATIONS CONSULTANT AT M LEUVEN
